

## Crosswind Landings and Other Potential Disasters

Bruce Bohannon, owner of Flyin' Tiger Flying School, will discuss how to avoid loss of control of the aircraft. A high percentage of accidents occur in the landing phase of flight. He will discuss methods, techniques and practices to optimize proficiency and safety for this critical phase of flight. The landing isn't over until you're at the hangar.

Prior to attending this safety seminar please review and adhere to current CDC, State, and Local health guidelines.

**Directions:** Anson Aviation is located south of the Sugar Land Regional Airport Main Terminal Building.
