

FAASTeam presents:

KCXO The Little Airport That Could

If you've already flown into, or plan to, the Conroe-North Houston Regional Airport, this seminar will provide valuable information most of which people are unaware. From it's amazing history, through the many projects completed and those upcoming, the extremely busy US Custom's Office, the US Army military and other government operations, flight schools and more (including food), you will learn how the economic and social impact on Southeast Texas is one to be taken seriously. Come find out why KCXO was the only airport with flying operations during the disastrous Hurricane Harvey, and how that impacted the entire Texas Gulf Coast. Can we say Command Center and unmatched Relief Effort?

Directions: The meeting is at the Galaxy FBO on first floor in the Conference Room. Take exit 89 from I-45 N Continue on N Fwy Service Rd. Then take N FM 3083 Rd then Airport Pkwy to Carl Pickering Memorial Dr.
