

How They Survived a Controlled Flight Into Terrain!

John Blum, Director of the Lone Star College Professional Pilot Program (CFII, MEI, ATP, Part 141 Examiner, retired UAL Captain) and checkride candidate Darlene Woelfel will be discussing what happened on this multi engine practical test. After hearing a loud "pop" the plane pitched up about 50 degrees. John will talk about the actions he and Darlene took from that point, most importantly flying the airplane "all the way into the crash", and how their actions enabled them to survive this unfortunate event. This is a 1.5 hour seminar.

Main conference room on first floor of Galaxy FBO
