

There is More to Learn So Train Like the Pros

Simulator training is one of the most effective ways to build and maintain real-world proficiency—without real-world risk. Join Thad Short, CFII, ATP, United Airlines Boeing 787 First Officer, as he shares the many benefits of simulator training for both learning and maintaining proficiency. You'll also see a live demonstration of how a simulator allows pilots to safely experience, recover from, and learn from mistakes that could have serious consequences in an actual aircraft.

This event contains 1.5 hours of learning.

[Anson Aviation](#) is located south of [Sugar Land Regional Airport](#) Main Terminal Building. The meeting will be held in the Anson Aviation conference room.
