

North Little Rock CTAF Freq Change

Discussion of the upcoming change from the old CTAF to a NEW CTAF Frequency and discuss how it will positively affect pilot safety while flying into and out of ORK (North Little Rock Municipal Airport). Additionally, we will tour Camp Robinson Army Airfield and their state of the art maintenance facility to have a better understanding of their helicopter training mission.

Directions: Meet at the front gate at 6:15 PM to 6:30 PM. We will caravan to the airfield. The seminar will begin at 6:45 PM. The front gate is located at the intersection of Military Road and Donovan Briley Blvd.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
