

Combo Deal - Drones and Loss of Control

There will be a briefing on the new small UAS rule, 14 CFR Part 107, including all pilot and operating rules. The new rule will be effective on August 29, 2016. You can be better prepared for this meeting by taking the sUAS course available for free on faasafety.gov. Following the briefing of the New Part 107 we will have a presentation and discussion regarding loss of control (LOC) in manned aircraft, and how LOC is one of the leading causes of accidents and incidents nationwide and in Arkansas. Likewise, there is a LOC free online course, ALC-214, available on faasafety.gov, that will increase your understanding of LOC to participate in the group discussion.

Directions: The seminar will be located on the 2nd floor of the terminal building in the classroom

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
