

How Do You Hear Me?

We will discuss loss of communications while you are airborne or on the ground at a towered airport. Whether flying IFR or VFR, loss of communication can make a difficult situation worse. You should know what to do and what ATC will expect you to do if you lose your ability to communicate. We will have suggestions on filing your flight plan with the possibility of loss of communications while you are in IMC or flying under IFR.

Directions: At the FBO, brick building by the flagpole

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
