

Human Factors in Aviation Accidents

Jack Blackshear, MD (see Bio listed below) will cover Human Factors in Aviation Accidents. It is a sad fact that general aviation accidents occur too often, with awful outcomes. Is it complacency? Distraction? Lack of training or practice? As a Naval Flight Surgeon I took a closer look at human factors in aviation accidents. Although highly trained and motivated even the best military pilots can make mistakes. Dr. Blackshear will focus on a few cases that impressed upon him almost 50 years ago. You don't want to miss this! Register today.

Directions: Top the Mains Cafe and Grill is in the same location as the former Flight Deck Restaurant. The meeting will be held in the main restaurant area as you enter the building.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!
