

FAASTeam presents:

## CFI DPE Forum

In this forum we will discuss methods for teaching airmen weather. Additionally, designated pilot examiners will share areas that airmen are falling short on understanding weather. Together as a team, instructors and designated pilot examiners can combine their extensive knowledge and experience with sound judgment to create and provide the most comprehensive and effective pilot training experience, followed by a reliable and effective evaluation.

**Directions:** Enter the airport from Remount Road and follow the circle drive around to the blue hangar. The meeting will be held in the EAA Chapter 165 hangar.

### A message from the National FAASTeam Manager
