

FAASTeam presents:

# **Weather Briefing Tools and Technology hosted by Operation Skyhook**

The tools & technology available to GA pilots have changed significantly over the last few years, but have GA pilots evolved with them? This presentation takes an in depth look at how weather & weather interpretation has plagued GA pilots over the years and what we can collectively do to reverse the trend. Leidos will also demonstrate the services, briefing tools & features that [www.1800wxbrief.com](http://www.1800wxbrief.com) has to offer; with helpful tips on the best ways to interact with Flight Service.

Presentation Highlights: Aviation Accidents Due to Weather & StatsPop Quiz – Weather Briefing Myths Why do pilots call Flight Service? AC 91-92: Pilot's Guide to a Preflight Briefing Added Value Briefings Mobile Devices Online & Phone (IVR) Capabilities Useful Online Resources Real Time Demonstration File Flight Plan, Plan a Route & Request Route Brief Easy Activate©, Easy Amend & Easy Close© ACAS Leidos Preflight Activity Summary Graphical Checklist & Priority Services Interactive Map/Local Area Knowledge Retrieve saved favorite flight plan Evaluate Departure Time & Optimize Altitude Voice & Text Services

Speaker, Jeff Arnold, is a graduate of Oklahoma State University, has held a flight instructor certificate for 15 years, previously served as
