

CFI/DPE Forum

Join us for an open discussion on aircraft and applicant readiness. We will use a Private Pilot ASEL applicant as an example and see if the plane and the applicant are ready for the practical exam.

The discussion, while geared to a Private Pilot ASEL applicant, will have principles that relate to all certificate levels. CFI/DPE forums are a great way to foster open communication between CFIs and DPEs so we can work together to build a safe and successful training environment in Central Arkansas.

North Little Rock Jet Center Lobby
