

Little Rock ATCT 2024 Runway Safety Action Team

Runway incursions remain a serious concern nationally. One important component of our ongoing efforts to improve surface safety at Clinton National Airport involves conducting a Runway Safety Action Team (RSAT) meeting at least once each year. The purpose of this RSAT meeting is to unite those individuals and organizations that are actively involved in air traffic operations and movement of aircraft, vehicles and equipment on the Airport Operations Area (AOA). We look for participation from all major airport interests including tenants, fixed base operators, airport operations and maintenance personnel. Participants are asked to help develop recommendations and solutions to enhance surface safety. Those recommendations serve as the foundation for a site-specific Runway Safety Action Plan. There will be multiple Little Rock Air Traffic Controllers and personnel from Clinton National Airport on hand to speak with you and answer any questions.
