

Operation Skyhook 2025

The owner of a General Aviation aircraft received all/most of his or her information about piloting a plane from their CFI, but have received very little information about owning or maintaining an aircraft. If the owner hasn't spent much time with their local A&P or repair facility, there is usually a lack of knowledge.

This presentation is a starting point to help owners/operators/pilots understand their aircraft's maintenance needs and understand their relationship and maintenance facility.

Terminal Building at Grider Field. Airport is located 3 miles south of the City of Pine Bluff along HWY 65 S.
