

Fort Smith ATC Pilot Controller Forum

Learn best practices for working with local ATC controllers before your next flight. Bring your questions and concerns. All pilots are welcome to this interactive event to increase airspace safety and efficiency! This is a great chance to hear directly from the tower that we work so closely with on a day-to-day basis, ask questions, and hear their perspective on how they manage air traffic around the airport and the traffic pattern.

The meeting will be held at the Sebastian County Building
