

## May 12th MEM IMC Club Meeting

On February 13th, four people flew a state-of-the-art Epic E1000 turboprop into Steamboat Springs, CO, on a night approach. The engine was running perfectly. The autopilot was engaged. The needles were centered. And they flew into a mountain. Join the Memphis IMC Club meeting on Tuesday, May 12th, at 7 PM CDT for a presentation and discussion about how we can be better prepared for these types of flights.

The meeting will be held via Zoom.
