

'Don't Let Takeoffs and Landings Ruin Your Day'

Attend the event on Friday evening to gain insight on techniques to improve takeoff and landing skills and associated risk management. Those that choose to do so may register that evening to participate in a takeoff and landing clinic to be held on Saturday at Midland College. Fly with a Midland College Instructor and put what you learned into practice.

Directions: Take Loop 250, south on Garfield, first stop light turn left. Building will be Davidson Family Health Science Building off of Circle drive. Signs will be posted.

A message from the National FAASTeam Manager

The new WINGS—Pilot Proficiency Program is great! Check it out now!
Sign up for the FAA's safety services at www.FAASafety.gov!
