

Watch Out Where You're Pointing That Thing!!

This presentation will cover things we can do as pilots to help improve control of the aircraft. Just like a person at a rifle range has to be aware of where they have their weapon pointed, we need to be aware of where we have our aircraft "pointed". At all times. We will discuss techniques for takeoff, enroute and landing, to include traffic patterns at non-towered airports.

Directions: The CAF Hangar is located on the southeast corner of Elmdale Airpark

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
