

# You Are the Airspace Beneath My Wings

The American National Airspace system seems to be ever increasing in complexity. This has led some pilots to tend to shy away from certain types airspace. This presentation will cover the "what, why and how" of operating in the airspace without "ripping your britches".

**Directions:** The TSTC Maintenance Training Hangar is located on the West side of the Abilene Regional Airport

## A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
