

## Beware of Things That Go Bump in the Air

This event is designed to review some things we can do to avoid becoming involved in a midair collision...where is it most likely to happen? How do you guard against it? We will look at some actual case studies and talk about mitigation strategies.

**Directions:** The TSTC Maintenance Training Hangar is located on the West side of the Abilene Regional Airport

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
