

Wichita Falls FAASTeam presents:

Monthly Safety Meeting

The "Area of Death" -- we fly into it a lot without realizing all the hazards involved. Better known as Alert Area 636 and depicted on our charts as A-636, we seem to take it for granted, yet many threats and hazards exist there (flying projectiles known as T-6s and T-38s). Maj Andrew "Skids" Lynch (F-15C fighter pilot and current SAFB T-38 IP) and Capt Erelend "Rema" Reitan (Danish AF F-16 fighter pilot and current SAFB T-6 IP) will present their program on T-38 and T-6 Pattern Operations and other high-density military traffic in our neck of the woods. Wings credit will be awarded to attendees.

Directions: Drive to 1801 9th St, Wichita Falls.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
