

Wichita Falls FAASTeam presents:

Monthly Safety Meeting

Why is airline flying so safe, and how can General Aviation be the same? An excellent question and the topic for this month's safety meeting which will be presented by Jeff Rowland (a 25 year American Airlines Captain currently flying 787s to the far east). Captain Rowland has a total of 31 years at AA with even more years as a general aviation pilot (flying since he was 14 years old) and promises a presentation that we won't want to miss. Wings credit will be awarded to attendees.

Directions: Drive to 1801 9th St, Wichita Falls.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
