

FAA Safety Team presents:

CFI Open Forum

How do you teach your students Aeronautical Decision Making (ADM)?

Aeronautical Decision Making is a systematic approach to the mental process used by pilots to consistently determine the best course of action in response to a given set of circumstances. In other words, it is a systematic approach to risk assessment and stress management. Sounds easy, right? At this FAASTeam Flight Instructor Open Forum we will explore ADM and how you can teach it to your students to assess risk and manage stress. Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. Join your flight instructor colleagues and take an active role in improving safety in flight training! Click on the link below and register TODAY!

Directions: From the south loop (West bound) exit at Slide Road proceed turn left on slide (South). Turn right on 68th street. Turn right on 66/69th street and another right on Albany Ave. It is the two story glass building on the right. Enter the West entrance and follow signs to the FSDO conference room.

From South Loop (East bound) Exit at Slide Road, follow the access road to Albany Ave, turn right, first building on the right. Enter the West entrance and follow signs to the FSDO conference room.
