

FAA Safety Team presents:

CFI Open Forum

The flight review is a golden opportunity for the flight instructor. Virtually every pilot will need a flight review at least once every 24 calendar months. It is also an opportunity to help mold safer pilots. As you know, safer pilots will improve the accident rate (and in particular, if properly conducted would reduce the amount of LOC-I accidents). Perhaps the most important opportunity is that this might be the only chance that CFIs will have the opportunity to interact with those pilots that shun recurrent training. Join us in the discussion of this important topic. Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. Join your flight instructor colleagues and take an active role in improving safety in flight training! Click on the link below and register TODAY!

Directions: From the south loop, exit at Slide Road proceed south on slide. Turn right on 68th street. Turn right on 66th street and another right on Albany Ave. It is the two story glass building on the right. Enter the West entrance and follow signs to the FSO conference room.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
