

## Monthly Safety Meeting

Pilots love to fly until that moment when the engine gives out. A great way to continue that love of flying is to do everything possible to ensure that the engine doesn't give out. Toward that end, Larry Gunnell (2017 District FAASTeam Representative of the Year and CFII/MEII) will present a program entitled "Engine Maintenance and Performance Monitoring -- The Care and Feeding of Your Aircraft's Engine" where he will talk about best practices for reciprocating engine maintenance and operation, and the safety benefits of Flight Data Monitoring – a technology and process that's now coming to General Aviation. Wings credit will be awarded to attendees.

**Directions:** Drive to 1801 9th St, Wichita Falls.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
