

Wichita Falls FAASTeam presents:

Monthly Safety Meeting

We are often taught that the base to final turn is the highest risk area for a stall/spin accident, but is this really true? Pete McElvain (FAASTeam Representative, former U.S. Air Force pilot and current Corporate Pilot/ATP/CFII/MEII) has prepared a presentation entitled "Departure Stalls: I don't mean to be critical (AoA)" in which he will look at loss of control accidents on the other end of the runway. Wings credit will be awarded to attendees.

Directions: Drive to 1801 9th St, Wichita Falls.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
