

Wichita Falls FAASTeam presents:

Monthly Safety Meeting

Attendees at last month's meeting were made aware of the transmission-line hazard at the approach end of Kickapoo Runway 35. Although the FAA originally determined that the line would not be a hazard, they have since had second thoughts. In his presentation entitled "Obstacle Clearance Surface -- Where Does Legal Put Us?" Uwe Zeizinger (FAASTeam Representative, German Air Force Pilot (ret), ATP/CFII/MEII, and Chief Flight Instructor at Cobra Kai Flight Academy) will explain why the FAA would initially determine it not to be a hazard and why/how it is really a serious hazard -- especially at night. Wings credit will be awarded to attendees.

Directions: Drive to 1801 9th St, Wichita Falls.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
