

## Get to Know Your ATC

At this event, we'll be discussing why pilot deviations are such a big deal. We'll discriminate between ground and air deviations and offer tips for success in PD Avoidance. We'll be joined by representatives from Midland Air Traffic Control (ATC) and we'll discuss local problems and challenges with respect to ATC tower, approach/departure, and en route operations. Finally you'll have an opportunity to ask our friends in ATC any questions you may have. They will also get to ask questions from you. To attend, click the link below and register TODAY.

**Directions:** From Veterans Airpark Lane, Continue to Midland Airpark Airport gate. Park on south side of the hangar.

### A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Join us on Facebook: <https://www.facebook.com/groups/GASafety/>

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
