

Monthly Safety Meeting

The proper use of a checklist is a high emphasis item during any check ride. Unfortunately, many of the manufacturer provided checklists are very cumbersome and will send your eyes and hands over the entire cockpit in a very inefficient and time-consuming way. Is there a better and more efficient technique? Uwe Zeizinger, (ATP, CFII, MEII) has prepared a presentation that will point out a more efficient way to get things done in a logical manner while still using the checklist as a true checklist and back-up.

Wings credit will be awarded to attendees.

Directions: Drive to 2801 Midwestern Pkwy.
