

Prior Planning Prevents Poor Performance

All too often, accidents start in the planning phase or worse yet -- the lack thereof. H.-P. Schuele will provide us with guidance on how to quickly and efficiently cover the main points of preparing for a flight, including EVAP and the use of ForeFlight. H.-P. is a District FAASTeam Representative of the Year, retired German Air Force fighter pilot, and currently an ATP, CFII, and USAF Flight Simulator Instructor/Branch Chief.
