

## Mechanics For Pilots - Return to Service after Maintenance

The General Aviation Joint Steering Committee (GAJSC) has identified a number of fatal general aviation accidents caused by flying in an aircraft that is undergoing maintenance and is not approved for return to service. Before you take or fly an aircraft, always check for the signed, Approval for Return to Service entry in the aircraft's logbook. Most aircraft owners are up to speed on the status of their aircraft, and rental fleets usually have aircraft status boards or squawk sheets to check for problems with an airplane, but nevertheless some pilots take, or attempt to fly, an airplane that is undergoing maintenance or is not ready to be returned to service. Never assume that an aircraft is ready to fly.

Driving.....From Veterans Airpark Lane, continue to Midland Airpark Airport north gate. Enter the code for the north gate. Code can be provided by calling Floris Flight Services at (432) 203-2048. Park on south side of the hangar.

Flying.....KMDD is the identifier. Park on the west side of the hangar. For airport information, see attached airport diagram.

### Event Details

**Mon, May 12, 2025 at 18:30 CDT**
