

# Global and Domestic GNSS Interference Jamming and Spoofing Seminar

At the beginning, a scenario will be presented, and attendees will discuss it in groups. Then, a slideshow presentation will follow, covering false alerts and warnings, Jamming vs Spoofing, hot spots, aircraft dependencies, and relevant trends. Structured to be similar to an IMC/VMC club meeting.

From San Angelo Loop 306 head south on Knickerbocker Road to the airport. Turn left onto Reary Blvd, and then another left on FAA Blvd to Hangar Road. Turn right on Hangar Road and park in the parking lot on the south side of Angelo State University building. Enter the building on the south side, and the classroom will be on the left side.
