

Monthly Safety Meeting

Situational awareness (SA) in flying is a pilot's continuous perception and mental model of the aircraft's physical state, environmental conditions, and future flight path. It relies on three core levels: **perception** of data, **comprehension** of meaning, and **projection** of future events.

Felix Bohn, Chief Pilot at AEROSPACE N3XT has prepared a presentation that will show how to build and maintain SA during your flight.

WINGS credit will be awarded to attendees.

Drive to 2907 Garnett Ave.
