

Monthly Safety Meeting

Despite stall training being emphasized on practical tests for all certificates for decades, takeoff and climb continue to rank as the most fatal segments of flight based on recent accident statistics. This presentation will discuss why departure stall/spin accident rates remain stubbornly constant and what a pilot can do to avoid joining the statistics.

WINGS credit will be awarded to attendees.

Please sign up online at [FAASafety.gov](https://faasafety.gov).

Drive to 2907 Garnett Ave.
