

What you should see to complete a successful Instrument Approach. Seminar 3 of 3 - UPDATED

Rogers Shaw, training team leader at the Civil Aeromedical Institute, and international speaker will address "night vision". Oklahoma City is the only place in the world where course developers, and those who finalize procedures are congregated. We are fortunate that they also volunteer their time to the General Aviation community.

Directions: The seminar is at the new Southern Wings Hangar, north of NW 63rd & west off Rockwell Ave. It appears to set by itself. We will have a FREE cookout after the two hour seminar. An Instrument Rating is not required to attend this seminar series.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
