

Introduction to FAASafety.gov and a look into Owner Maintenance

We will cover two topics in this one hour session: First, Chris Morris will give you the 'baby steps' of how to use the tools available to you at FAASafety.gov. He will show you how to create an account and then how to use the Wings Program to stay up to date. Second, Billy Risley will share some lessons-learned about aircraft owners who may have bit off more than they could chew while performing maintenance on their own aircraft. The dinner (fee applies if you plan to eat) will be served at 6:30pm and the seminar will start shortly there-after.

Directions: Car parking in the building parking lot. Fly-in parking at the main terminal ramp. Note: This Oklahoma Pilots Association meeting is being held on the 2nd Thursday of the month due to the holidays.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!
