

Meet Your TUL Controllers. Pilot/Controller Forum

Our Pilot/Controller Forum and Discussion will address Reduced Air Traffic capacity, and pilot/controller workload will be increased while this situation exists. An economic impact is being felt by the aviation community. Keeping up with Notams is increasing workload, arrival and departure delays are increasing, training is being impacted. Movement on the airport is disrupted. Please attend this safety seminar, and be sure to read the attached "LETTER TO AIRMEN".

Directions: Legacy Jet Center is located at 7120 East Apache. From the Sheridan Rd and Apache intersection at the Southwest corner of Tulsa International Airport, go East on Apache and follow it to 73rd East Avenue, then turn North. Legacy Jet Center will be on the West side of the road across from Spartan.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
