

FAASTeam presents:

Will Rogers World Runway Safety Action Team Meeting

The purpose of this Runway Safety meeting is to unite those individuals and organizations that are actively involved in airside operations and movement of aircraft, vehicles and equipment on the Airport Operations Area (AOA). We look for participation from all major airport interests (tenants, fixed base operators, and airport operations and maintenance personnel). Participants are asked to help develop recommendations and solutions to enhance surface safety. Those recommendations serve as the foundation for a site-specific Runway Safety Action Plan. You are cordially invited and encouraged to join us.

Directions: When you arrive at the tower pull forward to the gate and someone will assist you with entry.

A message from the National FAASafety Team Manager
