

## Shawnee Safety Meeting

A&P instructors Henson and Brown will discuss common engine mismanagement issues and how you as a pilot can better manager your power plant.

New Location!! Due to tornado damage to the terminal building, the meeting will be held in the conference room at Gordon Cooper Tech Aviation Campus (GCTC) located on the north end of the runway at KSNL. There is space for parking on the ramp at GCTC but no tie downs or chocks are available so plan to bring some if flying in!

\*Prior to attending a safety seminar please review and abide by current CDC, State and Local health guidelines.
