

RVS 2024 Runway Safety Action Team Meeting

This event is open to all users of the airport.

Runway incursions remain a serious concern nationally. One important component of our ongoing efforts to improve surface safety at Tulsa RVS Airport involves conducting a Runway Safety Action Team (RSAT) meeting at least once each year. The purpose of this RSAT meeting is to unite those individuals and organizations that are actively involved in air traffic operations and movement of aircraft, vehicles, and equipment on the Airport Operations Area (AOA). We look for participation from all major airport interests including tenants, fixed base operators, airport operations and maintenance personnel. Participants are asked to help develop recommendations and solutions to enhance surface safety. Those recommendations serve as the foundation for a site-specific Runway Safety Action Plan. You are cordially invited to join us

The conference center is the first building you come to, enter the building through the doors by the flag pole.
