

Skiatook Flying Club Meeting

In this presentation we'll talk a little bit about recent studies that deal with Human Factors identified in a selection of general aviation accident investigations. We'll take a high-level view of human performance issues that may affect our piloting performance. And we'll point you to a series of courses on FAASafety.gov where you can learn more.

The meeting will be held in the Airport lounge.

Skiatook has a security gate; the code is the published CTAF (four numbers).
