

Chickasha Safety Meeting Pre-Flight and In-flight Weather Resources

Pre-Flight and In-flight Weather Resources

- Pilots must be confident that weather conditions for each flight will be within pilot and aircraft capabilities.
- Pilots should be familiar with the many sources of weather information available for pre-flight planning and in-flight decision making. They should accumulate and compare data from multiple sources to develop an accurate weather picture.
- Pilots should assess present and forecast weather assessments before flight and they should confirm their assessments by contacting Flight Service.
- Pilots should be cognizant of the capabilities and limitations of weather detection technology installed in the aircraft that they fly.
