

San Antonio FAAS Team presents:

October IMC - Plate or No Plate

You have a great plan with some alternatives. The plan starts to fall apart with worse weather than planned and then icing starts to happen with lowering temperatures. Divert and then the divert doesn't go as planned. You end up going so far off the plan you do not have any IFR plates for where you are diverting to. Please come and be ready to discuss. EAA/IMC Club, through the EAA's global Chapter structure, provides organized "hangar flying" focused on building instrument flying knowledge and skills.

The program's network promotes a safety culture through continued education and believes that we develop safety and proficiency through education and real life experience. Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, aviation professionals provide informative WINGS presentations. You do not have to be an instrument rated pilot to attend.

Membership in the EAA/IMC Club is encouraged but not required to participate in this meeting. For more information and to take part in this event, click the link below and register TODAY! Please adhere to all the local and state health directives that are current.

Event Details

Thu, Oct 14, 2021 - 18:30 CDT

New Braunfels Airport

New Braunfels Airport, FM 758

Terminal Building

New Braunfels, TX 78130

Contact: Terry Ross
(210) 885-2927
