

FAASTeam presents:

New Braunfels IMC Club Meeting - Unelectrified

You have volunteered to be a pilot at a Young Eagle's event but the weather looks "iffy". After arriving and getting ready to fly, the weather gets worse and the event is canceled. You have to file IFR to get back home and you are current and the aircraft is certified. On the way home just right after takeoff the electrical equipment starts to go out and you are quickly becoming "Unelectrified". Please join us for a discussion and talk about how you would handle the situation.

Please adhere to all state and local health guidelines.

EAA/IMC Club, through the EAA's global Chapter structure, provides organized "hangar flying" focused on building instrument flying knowledge and skills. The program's network promotes a safety culture through continued education and believes that we develop safety and proficiency through education and real life experience. Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, aviation professionals provide informative WINGS presentations. You do not have to be an instrument rated pilot to attend. Membership in the EAA/IMC Club is encouraged but not required to participate in this meeting.

Event Details

Thu, Nov 11, 2021 - 18:30 CST

New Braunfels Airport

2333 FM 758

New Braunfels, TX 78130
