

San Antonio FAASTeam presents:

New Braunfels IMC Club No Way Out of Tucson

Our scenario for the month of February is a flight out of Tucson, AZ (KTUS). The clearance is just a little different and you normally just get vectors.

Today you are going to have to actually fly a SID and pay attention to departure procedures. You are on your own.

EAA/IMC Club, through the EAA's global Chapter structure, provides organized "hangar flying" focused on building instrument flying knowledge and skills. The program's network promotes a safety culture through continued education and believes that we develop safety and proficiency through education and real life experience.

Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips.

Through the FAA Safety Program, aviation professionals provide informative WINGS presentations. You do not have to be an instrument rated pilot to attend. Membership in the EAA/IMC Club is encouraged but not required to participate in this meeting.
