

San Antonio FAAS Team presents:

Controlled Flight Into Terrain (CFIT) and Continuation Bias

Rockport Fly-In - Too Many Individual Activities to List them Here.

Controlled Flight Into Terrain - We all know it happens, so why does it keep happening?

Every year there are way too many accidents where the pilot flies a perfectly good aircraft into the terrain or an obstruction. Pilot Distraction; Low Situational Awareness; Asleep at the Wheel; Continued Visual Flight into Deteriorating Weather.....Let's talk about it.

Continuation Bias - What keeps a Pilot pushing forward when the conditions may be telling you to LAND?

Prior to attending a safety seminar please review current CDC, State and Local health guidelines.

Directions: Flying in - Set your GPS to KRKP; Direct-Enter-Enter; Talk with Corpus Christi Approach on 120.9; Aransas County CTAF Frequency is 123.05; Aircraft parking will be along the North end of Taxiway Foxtrot (east of Rwy 36); Watch for marshalls to guide you in

Driving in - North of the City of Rockport, from Hwy 35 North or South, once you are abeam the airport follow the signs for the Fly-In Event entrance gate.

Walking in - Probably Not! Try a Taxi or Ride-Share!!!

Event Details

Sun, Dec 11, 2022 - 10:30 CST

Aransas County (Rockport)

Airport - Gene Hangar

421 John D Wendell Rd

Rockport, TX 78382
