

Runway Safety Meeting - New Braunfels National Airport

Runway incursions remain a serious concern nationally. One important component of our ongoing efforts to improve surface safety at New Braunfels National Airport (BAZ) involves conducting a Runway Safety Action Team (RSAT) meeting at least once each year. In conjunction with airport management, we will be conducting a local RSAT meeting on April 28, 2023. The meeting is scheduled for 1030am to 1130am, and will be held New Braunfels National Airport Conference Room

The purpose of this RSAT meeting is to unite those individuals and organizations that are actively involved in air traffic operations and movement of aircraft, vehicles, and equipment on the Airport Operations Area (AOA). We look for participation from all major airport interests including tenants, fixed base operators, airport operations and maintenance personnel. Participants are asked to help develop recommendations and solutions to enhance surface safety. Those recommendations serve as the foundation for a site-specific Runway Safety Action Plan. You are cordially invited to join us.
