

New Braunfels VMC Club Meeting - Loss of Control

You are flying a Piper Pawnee doing some banner towing. The stick has seemed to become looser with every flight. On this flight, the stick is no longer controlling the aircraft. What would you do? Can you control the aircraft by other methods.

EAA/VMC Club, through the EAA's global Chapter structure, provides organized "hangar flying" focused on building flying knowledge and skills. The program's network promotes a safety culture through continued education and believes that we develop safety and proficiency through education and real life experience. Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips.

Select #: SW17127699

Through the FAA Safety Program, aviation professionals provide informative **WINGS** presentations.

You do not have to be an instrument rated pilot to attend. Membership in the EAA/VMC Club is encouraged but not required to participate in this meeting.

For more information and to take part in this event, click the link below and register TODAY!

Flying In - Hit Direct To for KBAZ and talk to Austin approach control from the North and San Antonio approach control from the South. Ask the tower to park by the airport terminal.

Driving In - Take the Highway 46 exit off of IH-35 to the SouthEast and turn left on FM 758. Airport will be on the left.

Walking In - Probably Not! Take a Taxi or Ride Share.
