

San Marcos IMC Meeting - A Shaky Flight

Scenario: You are on an IFR flight in a Cessna 172 nothing unusual as you begin your trip. As you are climbing up through 3000 ft the airplane starts to shake uncontrollably. What would you do?

EAA/IMC Club, through the EAA's global Chapter structure, provides organized "hangar flying" focused on building flying knowledge and skills. The program's network promotes a safety culture through continued education and believes that we develop safety and proficiency through education and real-life experience. Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, aviation professionals provide informative WINGS presentations.

Have you ever asked yourself, how can I keep my skills as sharp as they were when I received my certificate and have fun at the same time? A little training, and a little fun. Fun and maybe a little bit of competition can help ensure we develop our flying and keep our skills sharp and confidence high while we fly!

Event Details

Thu, Apr 18, 2024 at 18:30 CST
San Marcos Airport Airfield
Operations Building
400 Airport Highway 21
Airfield Operations Building
San Marcos, TX

FLYING IN - Set your GPS to KHYI, Direct, Enter, Enter - From the North talk to Austin Approach; From the South talk to San Antonio Approach; After landing, tell Ground Control you want to park at Berry. If you plan on this method, call ahead, you will need to use the courtesy vehicle to get to the meeting, which is on Highway 21. Event organizers are not providing transportation from the airfield to the event.

DRIVING IN - From Interstate Highway IH-35 – Follow the signs from the highway from either direction. Do not enter the airport, the conference area is on HWY 21.

WALKING IN – Not a good option!!! Try a Taxi or Ride Share.
