

KHYI IMC Meeting - Surprises At Night

Scenario: You are on a night IFR flight in a rented Cessna 172 nothing unusual as you begin your trip. Mid-flight your autopilot fails, a while later white smoke starts emitting from behind the panel and your electrical systems are failing. What would you do?

Have you ever asked yourself, how can I keep my skills as sharp as they were when I received my certificate and have fun at the same time? Let's look at ways we can keep our flying skills up to par and more importantly have some fun while doing it. Training and fun, not often known as something that goes together very well. We can put together scenarios and training that mimics what we really do on our daily flights. Instilling fun and maybe a little bit of competition can help ensure we develop our flying and keep our skills sharp and confidence high while we fly!

FLYING IN - Set your GPS to KHYI, Direct, Enter, Enter - From the North talk to Austin Approach; From the South talk to San Antonio Approach; After landing, tell Ground Control you want to park at Berry. If you plan on this method, call ahead, you will need to use the courtesy vehicle to get to the meeting, which is on Highway 21. Event organizers are not providing transportation from the airfield to the event.

DRIVING IN - From Interstate Highway IH-35 – Follow the signs from the highway from either direction. Do not enter the airport, the conference area is on HWY 21.

WALKING IN – Not a good option!!! Try a Taxi or Ride Share.
