

New Braunfels VMC Club Meeting - Starved of Attention

The VFR trip was planned to be short and you have a partial fuel load. The plan is to fuel up at the destination. Halfway there the engine starts to stumble. Could it be that maybe you didn't have enough fuel? How much fuel should you take? Is "tankering" fuel a bad idea?

EAA/VMC Club, through the EAA's global Chapter structure, provides organized "hangar flying" focused on building flying knowledge and skills. The program's network promotes a safety culture through continued education through safety and proficiency and real life experience. Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips.

Through the FAA Safety Program, aviation professionals provide informative **WINGS** presentations. Membership in the EAA/VMC Club is encouraged but not required to participate in this meeting.
